

Over You - 1/1

Interprété par Daddy DJ.

Somewhere in town, there is a girl
That I love more than everyone else
Get up! Go away! And disappear...
When you see my face, everything's clear Baby.

It's just that you don't know
The feelings I've got deep in my soul
Don't break this heart of mine
I don't wanna be with you, get out my life now!

[Refrain]

I'll be over you another day
I'll try to forget you, that is to say :
You'll have plenty of time
To realize it and I'll be fine

You sure won't go anywhere with me
I don't wanna be your fantasy
Stand up! Stop crying! I feel so angry
Oh Dear my tears make me so crazy

It's just that you don't know
The feelings I've got deep in my heart
Don't break this one of mine
I just wanna know you are, out of my life now!

[Refrain x2]

You'll have plenty of time
To realize it and I'll be fine[x2]

[Refrain x2]

I'll be over you
Try to forget you
I'll be over you
