

STRANGER BY THE DAY (SHADES APART) - 1/1

Interprété par American Pie.

Snow is falling from the sky in the middle of July
The sun was shining in my eyes again last night
It all goes off without a sound, the silence is so loud
Something isn't right

Footsteps echo down the hall, no one's there at all
Dial your number but your voice says "I'm not home"
Everything is inside out, don't know what it's about
It keeps getting

Chorus
Stranger by the day
Stranger by the day
It keeps getting stranger by the day
Stranger by the day, yeah

Going for a walk outside, to see what I can find
No reflections in the window as I pass by
It feels hotter in the shade, water running from the drain
Something going on

Coversations with a mime, (unkown part here)
Imagination must be working overtime
The world is upside-down, everything is turned around
It keeps getting,

Chorus

By the time I reach your door, I can't take any more
I just happened to be in your neighborhood
I'm the one who gets surprised, I can't believe my eyes
Your alibi's no good.

Whatever happened to the world
Whatever happened to the girl I thought I knew
It just can't be true, I guess I'm losing you, yeah

Chorus (X2)
