

The Day (That You Gave Me A Son) - 1/1

Interprété par Babyface.

'Twas late December the news came And I got so excited, I cried all day And you were such a lovely, precious sight When I saw our baby in your eyes

Chorus

It was like falling deep in love
I heard the angels cry above
I felt a blessing straight from God
The day that you gave me a son

I called 'bout everyone I knew Just think, I'll be a father 'cause of you There's no greater love than what you gave A brand new baby on the way

Chorus

Oh such tears of joy, I've never known I can't remember
It's like a song, I've never heard
I've never sung, but know the words

Chorus
