

My World, My Love, My Life - 1/1

Interprété par Roxette.

Some days are covered in rain while other days are made of glory
And you are the summer sun the only one who knows the story

Do you want to talk about it? I don't know
Do you want to say some words? Oh, I can't let go

I'm talking 'bout my world, my love, my life
Everytime I try to close my eyes
You just enter my mind
and you lay yourself down beside me... oh why ?

Some streets are covered with sweat
there are no regrets just new connections... ohhh
You are the Summer Son and I'm the one who wants affection

Do you want to talk about it? I don't know
Do you want to speak some words? Oh, I can't let go

I'm talking 'bout my world, my love, my life
Everytime I try to close my eyes
You just run through my head
and you lay yourself down, beside me... oh why ?
