

(I could never) Give you up - 1/1

Interprété par Roxette.

I've been hiding, lost in the love of another. I've followed the moon and a song
and I thought it would take me forever to find a place where I belong.

I watch a rainbow rise. I give you all I've got.

I could never give you up, the way you make my love shine.

I could never give you up, the way you make true love shine.

I believe when you say you don't be lonely. I'll carry your heart like a bridge
when you need all the time you can find to get the hurt out of your mind.

I'll watch the rain go by and give you all I've got.

Cause I could never give you up the way you make my love shine.

I could never give you up, the way you make true love shine.
