

Take Time - 1/1

Interprété par Lenny Kravitz.

You can have it if you really want
You can grasp it if you have the thought
Feel your power that is deep within
Are you ready? On your mark begin
We should take time out to really love
We should find out who we really are
We should take time out to really love
Do you feel your life's a big mistake?
Don't you hate the way it's all so fake?
All I wanna do is just be real
And get off of the spinning wheel
All they sell us is a pack of lies
And we're buying one in every size
Can't you see it in the children's eyes?
It's about to get wild
We should take time out to really love
We should find out who we really are
We should take time out to really love
