

Live - 1/1

Interprété par Lenny Kravitz.

Tired of all the talk they're talkin' all over this town
I'm tired of all the negativity that's going round
We focus all our energy on things that bring us down
Let's put our voices all together and make a joyful sound
Do just what you wanna do Let the sun come shining through
Everybody
Live
Life is the most precious gift I thank the Lord for mine
I hope you feel the same my friend I hope you're feeling fine
The choice is yours your destiny is waiting on the line
You better get busy with living or you're busy dying
Do just what you wanna do
Let the sun come shining through
Everybody
Live
