

Junk of the hearts - 1/1

Interprété par Cardigans.

CD Gran Turismo

We never chose to

part

In this stupid play

I never felt by heart

That I could behave

The way the roles were made I know that I've done
you wrong

But you're hard to please

When your faith is gone

And when you can't believe

I'm on my hands and knees The junk of the hearts

The junk of the hearts

The junk of the hearts It's the junk of the
hearts

The junk of the hearts It's the junk of the
hearts I've given all of

me

And you crave for more

Weird how this makes us feel

Insecure

That's what friends are for The junk of the hearts

The junk of the hearts

The junk of the hearts It's the junk of the
hearts

The junk of the hearts It's the junk of the hearts
