

## Heaven - 1/1

**Interprété par All Saints.**

He, Heaven.....

He, Heaven.....

Lift me up, take me high, take me higher than I've been before,

I need time, time to find, the road to my destiny,

Heaven help me, on the cloud, cloud of happiness is where I wanna be,

It's killing my mind, I'm running out of time, so heaven lift me up.....

Scared to laugh, scared to cry, for fear of my own contradictions,

Maybe I should try and cover moral reasons, for God's sake,

Heaven lift me up.....

Wasn't supposed to be this way, got too much of my own say,

Never thought that I'd be standing at the gates of heaven....

at the gates of heaven, heaven lift me up.

Heaven lift me, lift me up.....

Awoh, yeah....

Take me high, above the clouds where the birds fly,

I'm feeling free, let heaven do the word for me,

Looking over this crazy city where we're living,

I've seen it, done it, it's just the way I've been.....

Wasn't supposed to be this way, got too much of my own say,

Never thought that I'd be standing at the gates of heaven....

at the gates of heaven, heaven lift me up.

Heaven lift me, lift me up.....

Awoh, yeah....

Take it, move it, feel like it's yours,

hoping you'll find what you're looking for,

baby (baby), what you're looking for?

Take it, move it, feel like you just,

hoping you'll find what you're looking for,

baby (baby), what you're looking for?

I won't fake (I won't fake),

I won't rest (I won't rest),

No way (no way) no.....

At the gates of heaven (never thought that I'll be standing)

at the gates of heaven (at the gates of heaven)

At the gates of heaven, at the gates of heaven (at the gates of heaven)

At the gates of heaven (never thought that I'll be standing)

at the gates of heaven (heaven lift me up)

Heaven lift me up.

Take it, move it, feel like its yours,

hoping to find what you're looking for,

baby (baby), (at the gates of heaven) what you're looking for?

Take it, move it, feel like you just,

hoping to find what you're looking for,

baby (baby), (heaven lift me up) what you're looking for?

Take it, move it, feel like you just, (never thought that I'll be standing)

hoping to find what you're looking for,

baby (baby), what you're looking for?
