

Living in me - 1/1

Interprété par Ophélie Winter.

I was sitting on the ground
Tears were rolling down my face
I didn't know where I find
A place to hide my holy faith
I took a look at the sky
And then I saw the light
I bait my soul forever
I've been hiding all the time
Hiding from my life
One day I realised
It was time to make it right
All you devils in disguise
You won't make me cry, no more
Hey, you better visualise
I'm sick and tired of all your lies!
I'm not gonna take it no more
In the lord I've found
What I've been looking for
He came up and knocked on my door
Gave me strenght and I'm not frightened anymore...
Lord is living in me
I can hear him talk to me
Deep in my soul, his voice is guiding my way
Lord is living in me
I can hear him talk to me
Deep in my soul, his voice is guiding my way
Lord is living in me
And he is all I got today
Heavenly father, please, Help me make it my way!
I swear I saw the Lord
And all that I know
He's given me his power
I'm telling you I know I know I saw him
Lord gave me strenght to keep on going further...
Lord is living in me
And he is all I got today
Heavenly father, please, Help me make it my way!
I been waiting all this time
For you to stay you're mine
Said, you wanna be my friend
But sorry, I just need a man!
All the words that you may say
They won't get me far, no, no
Hey, I wanna feel the love
Baby, open up your heart
I'm gonna take it no more
In the lord I've found
What I've been looking for
He came up and knocked on my door
Gave me strenght and I'm not frightened anymore
