

## Good morning sunshine - 1/2

Interprété par Aqua.

CD Aquarium

When the sun is up,  
on a clever sky,  
you will act like a lover.  
When the sky is grey,  
and the rain comes down,  
you will run for cover.  
Feel the heat, come out of cold,  
and your arm is touching me.  
Good morning sunshine,  
you are my only light,  
lying with me by my side,  
you keep me revolting.  
Just stay with me.  
Good morning sunshine,  
be with me all day,  
Just don't let the rain pass you by,  
when it is cloudy or windy  
and the snowflakes arrive,  
you somehow just make me,  
make me feel I'm alive.  
When you are in my feels  
then you are like the stars  
Fading away in the horizon  
there is a million streets  
leading off the night,  
waiting for sun to be risen  
Feel the heat, come out of cold,  
and your arm is touching me.  
Good morning sunshine,  
you are my only light,  
lying with me by my side,  
you keep me revolting.  
Just stay with me.  
Good morning sunshine,  
be with me all day,  
Just don't let the rain pass you by,  
when it is cloudy or windy  
and the snowflakes arrive,  
you somehow just make me,  
make me feel I'm alive.  
Hold it right there,  
let me take a minute of your time,  
to explain how I feel through these rhymes.  
I do the best I can, and believe me if I could  
I'll build you a paradise with these two hands.  
the top of your skin, makes my body go numb,

## Good morning sunshine - 2/2

I'm thinking to myself, if my dream come true,  
or is it coz you never give me a chance to tell you  
how I feel, the moments we had were too precious to kill.

When it is cloudy or windy,  
please turn your face at me

Good morning sunshine,  
you are my only light,  
lying with me by my side,  
you keep me revolting.

Just stay with me.

Good morning sunshine,  
be with me all day,

Just don't let the rain pass you by,  
when it is cloudy or windy  
and the snowflakes arrive,  
you somehow just make me,  
make me feel I'm alive.
