**Interprété par Sinead O connor.**

John I love you

I'm ever so fond of you

Will you wait for me Till I am heavenly

Oh there's much work to do

But I love you

Oh you're tender

Your name's a whisper

I let tears fall like rain

Apple-sized they were

All over her And through all of those times

When you could have died This is what you find

There's life outside your mothers garden

There's life beyond your wildest dreams

There hasn't been any explosion

We're not spinning like Dorothy

If you look now then you'll see why

Don't be afraid to cry This time don't let yourself fly

Child

Pick up those dancing shoes

Lick off those wedding blues

These are the ways

Yon can choose

Child you're tender

Your name's a whisper

There's life outside your mothers garden

There's life beyond your wildest dreams

There hasn't been any explosion

We're not spinning like Dorothy

If you look now then you'll see why

Don't be afraid to cry

This time don't let yourself fly

Child

Pick up those dancing shoes

Lick off those wedding blues

These are the ways

Yon can choose

Child I love you

I'm ever so fond of you
