

Be a man - 1/1

Interprété par Aqua.

CD Aquarium

The World is quiet, like there's none around

But I feel you beside me

I know the secrets you keep locked away inside

Don't understand why you're fighting

I know she must be special

This new girl by your side

I seek the answers when I look into your eyes

And it hurts like hell but I will be strong

Chorus

For once in your life

Be a man

Just tell me the words cuz I know that you can

Don't leave me with scars that noone can heal

For once in your life

Be a man

You made me love you love you right from the start

No control in my heart babe

Don't pack your bags yet give me time to say goodbye (say goodbye)

Just don't leave me wounded no

I just hope you will regret the things you do

Come back to me cuz our love is the real thing

And it hurts like hell but I will be strong

Chorus x1

I knew that I (I)

I fought to keep our love strong

If you leave me now (now)

You'll come running back for more babe

And I hope for

And I wish for

And I pray that the words from your mouth can eventually make you a man

For once in your life be a man

When everything stops

For minute in your life

I'll hope that

For once in your life be a man (be a man)

Just tell me the words cuz I know that you can

Don't leave with scars that none can heal

For once in your life

Be a man

Be a man

Tell me the words

(For once in your life) be a man

(Tell me the words)
