Interprété par Lou Bega.

CD Alittle bit of Mambo

I am the ice-cream man known as mellow
Now would you like to say hello to my fellow
Me and my amigos sitting all on a bench
Somewhere down in Puerto Rico
Two cocoa-honeys step by
They looking manefico so I
Step to them yeah how you doing
I took a close second' cause I knew that I knew them
Bongo let me drop all my lingo
I make her understand that I am still single
So honey don't you worry no way
I got a truck full of plastics here to stay
Whoop whoop just slide a little whoop whoop just ride a little
Whoop whoop baby baby get down little in the middle
Surrounded a big round
Chocolate banana vanilla flavor
You can try any damn thing I do you that favour
But later on you got to be here by my side
Waiting for a saddle to ride
We gonna do a thing that's mega
I am having way more sex than kiddies playing Sega
And like Noriega I am dictating the game
And I don't stop until you scream out my name
So honey don't you worry no way
I got a truck full of plastics here to stay
Whoop whoop just slide a little whoop whoop just ride a little
Whoop whoop baby baby get down little in the middle
Surrounded a big round
(jamming with the drums)
Whoop whoop just slide a little whoop whoop just ride a little
Whoop whoop baby baby get down little in the middle
Surrounded a big round
