Loving you is not just luck or illusion
It's in the make-up of our DNA
It's not by chance we make the perfect solution
Don't fight it baby, you know that it's just destiny's way

Baby lovin' you
Comes easily to me
It's what I'm living for
It's all in the chemistry
Baby lovin' you
Is how it's meant to be
It's something that is oh so natural to me

We got the answers but there's no explanation (no explanation)
We got each other baby come what may (come what may)

Cos when you touch me the reaction it just blows me away

Take it slowly, a step at a time
C'mon get close, closer to me
It's oh so natural, it's oh so easy to see
