Interprété par Big Soul.

Introduce herself ...

Julene, Do what you wanna do
Julene, I wanna ride with you

She got in gear, stepped on the gas
Other people saw us flying past

She said no, but I didn't care
She pushed ahead, drove the engine clean
Me in the front seat with ...

Julene, Do what you wanna do
Julene, I wanna ride with you

The air turned cool, the sun went down
The lights came up on tinseltown
Julene drove slow into th dark
As we found our way through Griffith Park
Looking over at the Hollywood sign
Me and Julene feeling fine
See i don't need no Jimmy Dean
I got my hero ...

Julene, Do what you wanna do
Julene, I wanna ride with you
