

Don't call me baby - 1/2

Interprété par Madison Avenue.

You and me, we
have an opportunity,
And we can make it something really cool
But you, you think I'm not that kinda girl,
I'm here to tell ya, baby, I know how to rock your world
Don't think that I'm not strong - I'm the one to take you on,

Don't under-estimate me, boy, don't make you sorry you were
born
You don't know me, the way you really should - you're sure
misunderstood,
Don't call me baby! You've got some nerve, and baby, that'll
never do
You know I don't belong to you. It's time you knew I'm not
your baby
I belong to me, so don't call me baby!
Behind my smile, there's my I.Q.

I must admit this does not sit with the likes of you
You're really sweet, mmm, you're really nice,
But didn't Mama ever tell you not to play with fire?
Don't think that I'm not strong - I'm the one to take you on,

Don't under-estimate me, boy, don't make you sorry you were
born
You don't know me, the way you really should - you're sure
misunderstood,
Don't call me baby! You've got some nerve, and baby, that'll
never do
You know I don't belong to you. It's time you knew I'm not
your baby
I belong to me, so don't call me baby!
