

## Light the way - 1/1

Interprété par Damien Saez.

What a strange star to live on  
You say you're well  
You say you're well  
What a strange way to fall in love  
So far apart  
You say you're well  
And you don't really care  
Cause you're already up there  
What a strange word to live with  
You say you're well  
You say you're well  
What a strange way to fall appart  
So far apart  
You say you're well  
Cause you don't really care  
Cause you're already up there  
Please just light the way  
Now the rain is turning red , As God is bleeding  
And you are dancing  
Your dress is covered in blood  
And you keep dancing  
As i watch you , I swear  
I'll stay with you up there  
I know the voice that beckons me out of this hell  
I know the road that you leads me home  
So don't be scared you're not alone  
So like the sun when all is dark please light the way  
We don't need anything else but love to light the way.
