Omarion, first verse...

Peek-a-boo

Pretty little lady I see you

Little Man knows what he wanna do

After school

You know that it's okay

Truth or dare

I wanna play

Baby if you stay

Sweetheart, let him go

So that I will know

Hook:

Come on, I know what you want

No need to front

Come on, leave him for me

What a pretty little thing like you gonna do with a fool like him

When you could be with me?

Come on, wait a minute

Come on, I know what you want

No need to front

Come on, leave him for me

What a pretty little thing like you gonna do with a fool like him

When you could be with me?

Come on, wait a minute

Hide and seek

If I come catch you, boo, be with me (baby)

Can you feel my flow

If not, you'll creep baby, that's fa sho

I'll satisfy

If you give me the time and recognize

Sweetheart let him go

So that I will know

Hook:

Come on, I know what you want

No need to front

Come on, leave him for me

What a pretty little thing like you gonna do with a fool like him

When you could be with me?
