

Charm attack - 1/1

Interprété par Leona Naess.

He's the kind of guy who's always passin' by and never has time to spend
And he'll take you for a spin and won't look within to find out who you are
And he numbs himself with weed, he's from the coldest breed who judge by what they see
And I thought he was smart enough to know that the girl on his arm will never calm his storms

Watch out ! He'll charm you
Smoother than the L.A. weather, that's how he holds himself together
He's colder than the winter, I wrap my coat around together
Cataract, it's charm attack that, leaves me hungry well
I'm no savior, but I tried to save you
Ooh my love
It's raging high inside

And he has his minions with no real opinions 'cause they only walk on glass
And your lies become the truth and give me proof that you really care
And with your gorgeous friend you have the world so dim believe an and everything you say

Watch out ! He'll charm you
Smoother than the L.A. weather, that's how he holds himself together
He's colder than the winter, I wrap my coat around together
Cataract, it's charm attack that, leaves me hungry well
I'm no savior, but I tried to save you
Ooh my love

He dampens each and every explosion
