

I wish you well - 1/2

Interprété par Josie And The Pussycats.

I wish you well
Couldn't you tell
After all these years
I wish you love
You're left in the world
That you're dreaming of

Refrain:

I wish you well
I wish you love
I wish myself
All of the above

What made me think
That I could survive
All the wear and tear?
It's not my thin
To stand here and pose
For some William Tell

Refrain

If there was a better time
I could not find it
It's mine not yours
And yours not mine
And we couldn't hide it
Don't take me on
A ride with you
It's a roller coaster
The only time I look at you
Is on a rock and roll poster
I wish you well

Where are you now?
Couldn't you see through
The sweat and tears?
I took my bow
While you confirmed
All my saddest fears

I wish you well
I wish you love
I wish myself
The world I dream of
I wish you well
I wish you love

I wish you well - 2/2

I wish myself
All of the above(4 fois)
