

# You weren't there - 1/1

**Interprété par Lene Marlin.**

She come home just won the game  
long time struggle she fulfilled her dream  
all she wanted was to make you proud  
you weren't there...

Had his birthday a few days ago  
he got some presents  
a big party too  
and there were congratulations cards  
as it used to be for  
not ever one from you...

Refrain: You weren't there, distant far away, it's like this every day, I see it in there heads, wonder if you'll  
come, afraid to close their eyes, and miss you once again...

She cut herself on a piece of paper  
it didn't hurt but she saw the blood  
she could need that embrace  
you weren't there....

Did he have to cry louder?  
would that make you hear him?  
you see his heart was broken  
for the first time...

Refrain

You cannot turn back time  
I wish that to come true  
they're making up these stories about you...

Refrain

Miss you once again....
