

Rain - 1/2

Interprété par Erasure.

What is there to do
Only rain
Falling down from the sky

Only me and you
Fair and plain
Nothing lost and nothing gained

Only the love nothing more nothing less comes between us
Temperatures rising my passion is burning inside

My world in light saving all as one
A love that no one can deny

My one true light same for everyone
A love we dare you to defy

Only rain

I won't settle for less, but no regrets
See myself in your own reflection
[See myself in your reflection]

Something in your eyes that tells me why I'm a fool for your warm affection
[I'm a fool for your affection]

Only the love nothing more nothing less comes between us
Temperatures rising my passion is burning inside

My world in light saving all as one
A love that no one can deny
Only rain

My one true light same for everyone [One true, one true]
A love we dare you to defy

Only rain

[You are my, my one true, my world in light]
[You are my, my one true, my world in light]

My world in light saving all as one [My one true, one true]
A love that no one can deny
Only rain

My one true light same for everyone [One true, my one true]
A love we dare you to defy

Rain - 2/2

Only rain

My world in light saving all as one

A love that no one can deny

Only rain

My one true light same for everyone [One true, one true]

A love we dare you to defy

Only rain

1997 - ERASURE (Vince Clarke / Andy Bell)
