

## Now is mine - 1/1

**Interprété par K's Choice.**

My past, my future, my disease  
Perhaps collapse to make me seize  
A moment just a breeze  
Greatful, humble I allow  
These words to be the past somehow  
I wonder  
Am I here now  
Am I here now  
I feel, hear, see and it confuses me  
I am wrong  
I am here now  
Is mine  
I'll take it all around the world  
Take my future past, it's fine  
But now is mine

My precious present, will you bloom  
To make this fourth dimension womb  
Stop asking. Stop asking why  
All I know is all I am  
Will never fully understand my breathing  
I try, how I try to feel, hear, see and it confuses me  
I am wrong  
I am here now  
Is mine  
I'll take it all around the world  
Take my future past, it's fine  
But now is mine
