

## Where is david - 1/1

**Interprété par David Hallyday.**

It's a cool day, and anything goes,  
Your mind is open wide  
It's a groove hey, lie in the sand,  
With horizons in your sights  
Fell the vibe, set me free  
My telephone is ringing, opportunity  
Take the call, not for me  
Please don't hang up I tell her, I'm all that you need  
It's a cool day,  
What a cool day now...

Where is David, is he in there ?  
I got this number, I like your hair

It's a good day, for you to come by  
Wanna see if David's here  
In the doorway, she puts on a big big smile  
I can see she's not all there  
Lights are on, dimly lit  
She isn't very wise and I'm not very clear  
All the same, it's a fit  
That she might give away, while David's nowhere near  
It's a cool day  
It's a groove babe  
What a cool day now...

Walk away, it's no good  
My head is hurting from the sound, got to get a clue  
In her voice, monotone  
I can't believe it never stops, she's so confused

Where is David, I live your hair  
Is in the bedroom ? I like your hair  
Do you what to show me now  
I like hair, I like animals, I like your hair
