

Supernature - 1/2

Interprété par Erasure.

Once upon a time
Science opened up the door
We would feed the hungry fields
'Til they couldn't eat no more
But the potions that were made
Touched the creatures down below
And they grew up in a way
That we'd never seen before

Supernature, Supernature
Supernature, Supernature

They were angry with the man
'Cause he'd changed their way of life
And they take their sweet revenge
As they trample through the night
For a hundred miles or more
You could hear the people cry
But there is nothing you can do
Even God is on their side

Supernature, Supernature
Supernature, Supernature

Gods will break the ice, and throw it in the air
The creatures will decide who goes where

How can I explain?
Things are different today
Darkness all around, no one makes a sound
Such a sad affair, no one seems to care

Supernature, Supernature
Supernature, Supernature

Better watch out, there's no way to stop it now
You can't escape, it's too late
Look what you've done
There's no place that you can run
The monsters made, we must pay

Maybe nature has a plan
To control the ways of man
He must start from scratch again
Many battles must he win
'Til he earns his place on earth
Like the other creatures do

Supernature - 2/2

Will there be a happy end?
Now that all depends on you

Supernature, Supernature
Supernature, Supernature
Supernature, Supernature
Supernature, Supernature
