

Angela - 1/1

Interprété par No Use For A Name.

I didn't mean to drag under
But I was thinking about you
And how your eyes swallowed me whole
I've tried my hardest to forget it
But a broken heart is murder for the soul

How does it feel to be
One of the beautiful people?
Everytime that I leave it's like goodbye...Forever

Angela don't hate me
No matter what they say
I'll always love you
Don't believe the authorities
Angela believe in me

Remember when we danced together
And I promised you the world?
Well, I'll have to take that back
Because my whole life has been capsized
In a minute all the colors turned to black

My heart was killing me
And no one could hear her scream at all
Let's runaway, if only for a day...I'm guilty

Angela I'm sorry I've failed you again
And this time it's for good
Don't believe your family
I'm in hell, and you're leaving me

Angela I'm sorry
Angela believe in me.
