

## I forgot - 1/2

**Interprété par Lionel Richie.**

Well honey here I am  
I'm standing here all alone  
Trying to get back to you  
I know I did you wrong  
By walking away  
But now I need to tell you  
I know now  
What we had was a good thing  
I know now  
How much I'm lost  
Girl without you  
Without you

I forgot it was your love  
That captured my mind  
I forgot it was your dreams  
that turned my life around  
I forgot it was your world  
I wanted to see  
I forgot it was my wish  
To make it you and me

Tell me what do I do  
I'm going out of my head  
I want and I'm missing you  
I can't believe where I am  
What have I done to myself  
Girl I didn't mean to hurt us  
I see now  
That your love was all I needed  
I see now  
How much I was wrong  
So forgive me, so forgive me  
Forgive me

I forgot it was your love  
That captured my mind  
I forgot it was your dreams  
That turned my life around  
I forgot it was your world  
I wanted to see  
I forgot it was my wish  
To make it you and me

Tell me what do I do  
I'm going out of my head  
I'm wanting and missing you

## I forgot - 2/2

I can't believe where I am  
What have I done to myself  
I really didn't mean to hurt us  
I see now I didn't have to play the game  
That I was playing  
I see now  
That I was wrong so wrong  
Can you hear me  
Please forgive me

I forgot it was your love  
That captured my mind  
I forgot it was your dreams  
That turned my life around  
I forgot it was your world  
I wanted to see  
I forgot it was my wish  
To make it you and me

I forgot about you  
I forgot about me  
I forgot about all the things we wanted together  
I forgot about the dreams  
Oh how much I love you babe  
I forgot...
