

## The night - 1/2

**Interprété par Scooter.**

Rumble in the jungle  
Arrrh

Back on the mic i got this sound  
Holding you down, down to the ground  
Making the melody  
Who are they who got the skills to test me  
I've been hit from far too law  
It's time to break out its time to be strong  
Beats going crazy inside my head  
Do you feel right?  
Here comes the night!

All my friends are talking to me, what the love i see  
I know you can't make it right, im still waiting now  
Waiting for the love i see  
If you want me too, there's something down, down the stairs  
I don't know

Yeeear

All my friends are talking to me, what the love i see  
I know you can't make it right, im still waiting now  
Waiting for the love i see  
If you want me too, there's something down, down the stairs  
I don't no

Don't be afraid, its just my work  
Cutting up, breaking the word  
Soon i have to move the time  
It ain't my word, just the lyrics that rime  
As cut, change, realance  
Choose and refuse, cut the plane  
Gonna get you hard like a burning flame  
Everythings allright?  
Here comes the night!

All my friends are talking to me, what the love i see  
I know you can't make it right, im still waiting now  
Waiting for the love i see  
If you want me too, there's something down, downest there  
I don't no

Yeeear

## The night - 2/2

All my friends are talking to me, what the love i see  
I know you can't make it right, im still waiting now  
Waiting for the love i see  
If you want me too, there's something down, down the stairs  
I don't no

Waiting for the love i see  
If you want me too, there's something down, down the stairs  
I don't no
