

March on down the line - 1/2

Interprété par Erasure.

A-ha let's play the game

Lover out my way
I'll stand up to anything
Move on out this heartbeat
The sun is over

A new day, a new way
I'm coming out this time
A new name, let's play the game
And march on down the line

I've got lots to share
'Bout the way I feel inside
Round and round this place
Like a shotgun fire

A new day, a new way
I'm coming out this time
A new name, let's play the game
And march on down the line

March on down
March on down
March on down the line
A-ha let's play the game

A new day, a new way
I'm coming out this time
A new name, let's play the game
And march on down the line

Now the fight is won
Standing ten foot tall again
God is on our side
Dance on up to heaven

A new day, a new way
I'm coming out this time
A new name, let's play the game
And march on down the line

March on down the line

A new day, a new way
I'm coming out this time
A new name, let's play the game

March on down the line - 2/2

And march on down the line

A new day, a new way
I'm coming out this time
A new name, let's play the game
And march on down the line

A new day, a new way
I'm coming out this time
A new name, let's play the game
And march on down the line

A new day, a new way
I'm coming out this time
A new name, let's play the game
And march on down the line
