

# Everybody - 1/1

**Interprété par Worlds Apart.**

diamonds in the night rocking this groove together  
right round, jump around to the funky sound  
this could last forever  
soldiers of the heart, fighting for the right  
to party, hold on won't be long if you wanna  
sing along, here we go now- ooh ooh

chorus  
everybody you've got to groove  
it's just like me and you  
like one and one makes two (everybody)  
everybody it's time to move  
this is your chance for letting go  
and you know that you've got to  
feel the body heat let the rhythm find your feet- yeah

lovers in the night, waking up strangers  
in the morning and it's calling to me  
come back and we can do it all again  
summer's on the beach, heaven is there just  
gotta reach out scream and shout, this is  
what's it all about - here we go now - ooh ooh

chorus

move your body to the sound, shout out  
loud and stamp around,  
everyone should sing alone - come one

chorus
