

Burnburn - 1/2

Interprété par Lostprophets.

Where do i begin with this life we're livin in
Mark the youth in uniform, make us all fit in
But do you think, that we're that blind?
And we can't see through all your lies?

Cause if its no good
burn burn the station
we'll burn it down
burn burn the truth
enjoy the flames
in celebration
enjoy the sounds
for us for them for you

I know the ive foretold
My intergrity was sold
Price and place the product shelf
Its worth its weight in gold
But do you think weve lost our minds?
And we can't see through all your lies?

Cause if its no good
burn burn the station
we'll burn it down
burn burn the truth
enjoy the flames
in celebration
enjoy the sounds
for us for them for you

burn burn the truth
the lies from you
burn burn the life
that you cant choose
burn burn the hate
that gets you through
burn burn for us, for them, for you
burn burn for us, for them, for you
burn burn for us, for them, for you
burn burn for us, for them, for you

Cause if its no good
burn burn the station
we'll burn it down
burn burn the truth
enjoy the flames
in celebration
