

Drown - 1/1

Interprété par Limp Bizkit.

It's getting closer to the end
every part of me
then disaster takes its toll
and now i'm left with only me
maybe sorrow plays a roll
when you feel unkind
your abuse is medicine
and i'm forever lost in time

chorus
save me
save me,before i drown

it's getting closer to the end
i look back and smile
we conquered every single
bump in my road
made it all worth while
just remember how i cared
when it came crashing down
like to toast to all those angels
that were always hanging around

chorus

maybe life ain't what it seems
'cuz it's all a dream
forgive me
sometimes i feel like a fool
'cuz i'm so uncool
forgive me.
