

Human shields - 1/1

Interprété par Fear Factory.

So much violence in our name
Our lives are silence, masked in shame
Children running in the streets
Soldier boots are on their feet
Mother bare the burdens of our defeats
Fathers are on their knees praying for mercy
So much violence in our name...

Holding me like your shields
So much violence in our name
Our lives are silenced, masked in shame
No more
No more
No more...
Holding me like your shield
No more violence in our name
No more violence in our name...
