

## Come back to japan - 1/1

Interprété par David Hallyday.

Lettres from you  
that I find  
Tokyo girl I left behind  
souvenirs to fill my years  
and cause anticipated  
tears to start falling  
though your closing words bring cheer

You write,  
I love you  
Think of you  
Come back to Japan

Girl though I've tried  
my New York pride  
can somehow justify this  
long face I wear an empty stare  
my true love's cross I bear  
words that you write me  
I mutter in my sleep

You say,  
I love you  
Think of you  
Come back to Japan

Hold me, I'll close my eyes and I'll  
dream you're here with me  
Press your sweet lips to mine  
let me kiss you just one more time girl

When tears drop to falling  
you letters all bring cheer

You write,  
I love you  
Think of you  
Comme back to Japan

I love you  
Think of you  
Comme back to Japan

I'm waiting in Japan  
Come back to Japan
