

## Simple things - 1/3

**Interprété par Usher.**

Yeah, uhh

They say money can't buy you love

They say money can't buy you love

They never seem to listen

I'm all ears

Just copped your girl a brand new Rolex

But you can never find the time to spend at home

Thinkin' it's gon' keep her happy

When time is all she wanted all along

[Chorus]

It's the simple things in life we forget

You hear her talkin' but don't hear what she said

Why do you make something so easy so complicated

Searching for what's right in front of your face

But you can't see it

So you think that you know what's important

Steady chasin' your fame and your fortune

But you don't know

You're chasing a dime losin' a treasure

Those dollars don't make sense to me at all

Ooh, it goes

Duh da duh da

You give her spending money

Duh da duh da

But all she wanna spend is time alone (tonight)

Keep givin' her

The finer things but

But she don't really need that

If you don't stop you're

You're gonna end up alone (alone)

The world without love (duh duh da duh da)

Why would you do it

[Chorus x2]

It's the simple things in life we forget

You hear her talkin' but don't hear what she said

Why do you make something so easy so complicated

Searching for what's right in front of your face

But you can't see it

It's the simple things in life we forget

You hear her talkin' but don't hear what she said

Why do you make something so easy so complicated

## Simple things - 2/3

Searching for what's right in front of your face  
But you can't see it (listen)

Stop tryna buy her love  
'cuz you won't ever have enough  
There's always someone with more than you  
You need to pay her attention  
Give her what she needs  
Do the simple things  
Before you lose your girl to me  
Yeah yeah yeah yeah yeeah  
Yeeeah yeah  
Play on playa  
Yeah  
Your girl comin' wit' me shorty, haha  
I'm tellin' you man  
'cuz u know

[Chorus]  
It's the simple things in life we forget  
You hear her talkin' but don't hear what she said  
Why do you make something so easy so complicated  
Searching for what's right in front of your face  
But you can't see it

You better look out  
I hear you talkin', i hear you talkin' (ha)  
But what are you saying  
Oh hoo oh hooo  
Don't be a fool  
You got a good thing  
Man are you blind  
Stupid or crazy?  
You got a good thing (uh)  
You got a good thing  
Special lady  
You better hold on  
And give her what she want  
Before she move on  
Man I tell you cars, clothes, and fancy things don't mean a damn thing  
If you ain't kickin it baby

[Chorus]  
It's the simple things in life we forget  
You hear her talkin' but don't hear what she said  
Why do you make something so easy so complicated  
Searching for whats right in front of your face  
But you can't see it

## Simple things - 3/3

[Fade]

Don't let this be the thing you'll always regret, no

It's right there, it's right there
