**Interprété par Stratovarius.**

Album : Dreamspace (1994)

Paroles et Musique : Timo Tolkki

Tear of ice falling down  
My cheeks forming a lake  
In its surface I see your face  
And I watch it 'til it's gone

There were times all I did was cry out your name  
Only thing I feel now is pain...

Tears of ice frozen heart  
Icy drops fall to the ground  
Forming stream, golden dream  
That will lead me to your door

There were times all I did was cry out your name  
Only thing I feel now is pain...

Baby you should see  
What you did to me  
Now I am crying tears of ice  
Baby you should feel  
Like I felt in those days  
Now I am crying tears of ice
