I have seen the future of mankind The wisdom of my prophecies you'll find Follow the truth and be careful Are we the last? Hundred years has passed what have we done Inconceivable damage under the sun I think it's too late to change the man We are the last

World keeps turning while people yearn for more Mother nature is crying for a change Time will come when we all must pay for what We have done, are you prepared for that?

As we are reaching the end

Of the century there's message we can send Be strong and bold and never lose your mind Cause we are the last

World keeps turning while people yearn for more Mother nature is crying for a change Time will come when we all must pay for what We have done, are you prepared for that?

The signs of the end I see Let them hear my voice in every corner of the world Take heed of the warnings that I give I have seen the southern cross forming in the sky

There shall be heard in the air the noise of weapons And in the same year the divines shall be enemies They shall unjustly put down the holy laws And by thunder and war true believers shall die (Nostradamus: Century IV:43)

For forty years the rainbow shall not appear For forty years it shall be seen every day The parched earth shall wax drier every day And a great flood when it shall appear (Nostradamus: Century I:17)

After us the road goes on forever Many changes lie along the path

Visions (southern cross) - 2/2

That's the price we pay for our selfishness We are headed for the end

From the skies shall come the powerful kind Before and after the Mars reigns at will Not far from the great age of Millenium Buried ones shall come out of their graves (Nostradamus: Century X:72,74)

When the comet tears out the sky You and I must die After all this the time will come for the chosen ones To rise from their graves to be free again

The beast is gone forever there's no more pain Instead so many things for us to attain The sun is shining brightly after the rain The land is green and full of life again

The sorrows wiped away now It's time to smile And learn from the past Together we will try

Twenty years of reign of the moon having past Seven thousand years another shall hold his monarchy When the sun shall resume his days past Then is fulfilled and ends my prophecy (Nostradamus: Century I:48)
