

Mountain - 1/2

Interprété par Good Charlotte.

All these dreams and all these plans
I built them all with these two hands
Everything, I've realized my dreams
The city lights shine down and they blind me sometimes
But through it all
I was lost but I found my way

So tell me what you want
Cause I would give you anything
Tell me what you need and I'll go get it
I'd give up all these dreams
To have you in my arms right now
I'd give up everything and I'd forget it

I wasn't on a mountain
When it came to me
All my life's been wasted
Chasing shallow dreams

So here we are
Let me lift you up and show you this world over me
And all these things
What I've gained
And what I've seen
It can't compare
To the love that you could give to me

So tell me what you want
Cause I would give you anything
Tell me what you need and I'll go get it
I'd give up all these dreams
To have you in my arms right now
I'd give up everything and I'd forget it

I wasn't on a mountain
When it came to me
All my life's been wasted
Chasing shallow dreams

Years go by and nothing's slowing down the time
Years go by and then they're wasted
All this time
I thought that I gained everything
If you're not mine, I'm so empty

I wasn't on a mountain
When it came, when it came to me

Mountain - 2/2

That all my life's been wasted
Chasing shallow dreams

So please come back to me
I'm right here waiting
So please come back to me now...
