

You left your kiss - 1/1

Interprété par Julie Masse.

You're gone now like the wind
That you left me standing in
Ever written on my face
This feeling will remain

If magic does exist
Then there's magic in your kiss
It's as if I have been touched
By a velvet glove

You left your kiss
You left your kiss
You left your kiss
On my lips

Till you come back again
In this endless dream I stand
Here is where I want to stay
Holding on to yesterday

(Repeat chorus)

And like a story that was
never told
You left me here with
something I can't hold
Until you come back I'll never
be free
From this part of you inside of me

(Repeat chorus)
