

The devil is a loser - 1/1

Interprété par Lordi.

You wanted power and you begged for fame
You wanted everything the easy way
You wanted gain without pain
Now your bill is in the mail
You got stronger but your mind got weak
You made a promise that you could'nt keep
You had it all-You lost more
It's all there in the fee

Via hell incorporated (regeneration)
1st you love it then you hate it (you're such a saint)
And now you're never gonna make it (bad situation)
Get on get on down, there's hell to pay'cause
The devil is a loser and he's my bitch
For better and for worse
And you don't care which
The devil is a loser and he's my bitch
Runnin'into trouble you skitch

You wanted riches and a licence to kill
You got poverty then you got hill
You got poor and you lost your will
All your dreams unfulfilled
I get my kicks when you blow your fuse
No-one got killed but that's no excuse
Hands up, I let you know when it's done
I've got only gun

Via hell incorporated (regeneration)
...
Runnin'into trouble you skitch

And there were no refunds
Just failing guarantees
"Confess your sins, son"
Said the preacher on the TV

You got yourself some greasepaint
Set of white and black
All you got was laughter and
Gene Simmons on your back
