

# Anything - 1/1

Interprété par Plain White T's.

[Verse 1]

I see your face  
In the frame on my desk  
It meant a lot  
Now it means a lot less  
It's just a place  
For the dust in my room to rest  
I see the letters  
That were written for me  
They said you cared  
And I totally believed  
They didn't mention  
That five months later you'd leave

[Chorus]

You could've told me anything [x3]  
To make me understand  
'cause I don't understand

[Verse 2]

I see the bracelet  
You gave me way back then  
Made it for me  
So I'd never forget  
It must have worked  
'Cause I haven't forgotten you yet  
I see the bed  
Where we used to mess around  
We'd talk for hours  
Before you'd go down  
That was before  
You decided not to keep me around

[Chorus x2]

You could've told me why you had to go  
I try to tell myself just let it go  
But I see your face, it's everywhere I go

[Chorus x2]

No, I don't understand
