

Reptile - 1/1

Interprété par Nine Inch Nails.

She spread herself wide open to let the insects in
She leaves a trail of honey to show me where she's been
She has the blood of reptile just underneath her skin
Seeds from a thousand others drip down from within
Oh my beautiful liar
Oh my precious whore
My disease my infection
I am so impure
Devils speak of the ways in which she'll manifest
Angels bleed from the tainted touch of my caress
Need to contaminate to alleviate this loneliness
I now know the depths i reach are limitless
Oh my beautiful liar
Oh my precious whore
My disease my infection
I am so impure
