

## Silicon world - 1/2

**Interprété par Eiffel 65.**

Cause all that I want is a silicon world  
Cause all that I want is a silicon girl  
So c'mon 'n' enter my silicon world  
World...

I was flying with my mind  
I was trying to see  
How this world it could have been  
Without you  
Silicon big streets  
In this world of dreams  
All of this and so much more

I was flying with my mind  
Looking around me  
And I see there's no more room  
In my human thoughts  
In the internet  
Everything I get  
And the plastic dreams of what

Cause all that I want is a silicon girl  
With silicon lips and silicon hair  
Shalala, lalala x2  
You're my silicon girl  
So c'mon 'n' enter my silicon world

World...

I was flying with my mind  
I was trying to see  
How this world it could have been  
Without you  
Silicon big streets  
In this world of dreams  
All of this and so much more

I was flying with my mind  
Looking around me  
And I see there's no more room  
In my human thoughts  
In the internet  
Everything I get  
And the plastic dreams of what

Cause all that I want is a silicon girl  
With silicon lips and silicon hair

## Silicon world - 2/2

Shalala, lalala x2  
You're my silicon girl  
So c'mon 'n' enter my silicon world

World...  
Cause all that I want is a silicon world...

Cause all that I want is a silicon girl  
With silicon lips and silicon hair  
Shalala, lalala x2  
You're my silicon girl  
So c'mon 'n' enter my silicon world

Cause all that I want is a silicon world...
