

Bad boy boogie - 1/1

Interprété par Ac/dc.

On the day I was born the rain felt down
There was trouble brewin' in my home town
It was the seventh day, I was the seventh son
And it scared the hell out of everyone

They sais stop, I saït go
They said fast, I said slow
They sais lost, I said no
I do the bad boy boogie

Bein' a bad boy ain't that bad
I had me more dirty women that most men ever had
All you women come along with me
And I'll show you how good bad boy can be

I said right and they said left
I said east and they said west
I said up and they said down
I do the bad boy boogie, all over town

I wouldn't tell you no story tell you no lie
I was born to love till the day I die
I just line em up, and knock em down
And they all came a runnin' when the word got around
(Just keep a runnin')

I said up, they said down
They said straight, I said round
They said lost, I said found
I said free and they said bound
Bad boy boogie
Do the bad boy boogie
Bad boy boogie
Bad boy boogie
