

Spread your wings - 1/2

Interprété par Robbie Williams.

I used to live round here
I was the boy with the flash clothes
She was the girl with the acid stare
I saw her at The Place
You know she knows you know...
How she shakes
When she jacks her body
To the sound of orange juice Jones and Joseline Brown

Spread your wings
Before they fall apart
Home is where the hurt is, darling
Follow your heart

So she walks into this dead-end bar
Sticks her handbag on the chair
So she walks into this dead-end bar
Puts her handbag on the chair
And she waves the words we share
When we were 15 and still cared
Cause she feels
I'm the scar from the wound that time can't heal

And I said
Don't let your dreams out of your hand
Don't fool your heart lying about
The feelings that you're having then

Did you try to change your life?
Did you ever try to change your life ?
You repeat and repeat and repeat...

Now she loves somebody else
In flash clothes
She was the girl with the acid stare
And now she paid to have one of those

And she waves the words she says
And she knows you exist
Now she feels I'm the scar from the wound that time can't heal

Spread your wings
Before they fall apart
Home is where the hurt is, darling
Follow your heart

Spread your wings

Spread your wings - 2/2

Before they fall apart
Home is where the hurt is, darling
Follow your heart, heart heart
