

If only - 1/1

Interprété par Mentake.

If only I could put my hands on you
I'd touch your face, I'd take you in my arms
I'd listen to your breath when you're asleep
And I'm not waiting for this dream to end
No this won't end cause

You won't need me
Anymore

Chorus
If only I could feel you one more time
If only I could make you realize
Then you would know why, I'm on my knees

The way you smile, the way you look at me
It's something that I can only dream of now
And no one else could ever understand
The way you speak to me
And no one else could ever feel this way again
This world's so sour, cause

You won't need me
Anymore

If only I could feel you one more time
If only I could make you realize
Then you would know this
And you'll see
You'll see me
Waiting

You won't need me
Anymore
This world's so sour
And you'll need someone

Chorus

If only I could put my hands on you
