

## Berliner star - 1/2

**Interprété par Robbie Williams.**

Dear Eva Freedle  
Got a brand new needle for you  
You said weed was evil  
So you're smoking in the lobby in the hotel foyer  
It wasn't even noon yet  
We didn't want to be too soon yet

But when the sun goes down through the after glow  
The night is yours, but your mother should never know

Auf Wiedersehen Berliner Star  
You run like a bastard, bastard  
You should have seen her  
Everything we did was wunderbar  
'Till God came between us and you fell for Jesus

Eva tore my heart out  
I got wasted in action  
Does she know, that I am a sucker for,  
instant satisfaction  
There's nothing more I've seen now, seen where I've been  
But you learn you know, to see the after glow  
You've got to burn to grow, but your  
mother should never know

Auf Wiedersehen Berliner Star  
You run like a bastard, bastard  
You should have seen her  
Everything we did was wunderbar  
'Till God came between us and you fell for Jesus

You are everything, everything,  
everything to me  
You are everything, everything,  
everything to me  
You were everything, everything,  
everything to me  
You were everything, everything,  
everything to me

Auf Wiedersehen Berliner Star  
You rock like a baster, blaster  
You should have seen her  
Everything we did was wunderbar  
'Till God came between us and you fell for Jesus

everything, everything, everything to me

## Berliner star - 2/2

You are everything, everything,  
everything to me  
Everything we did was wunderbar  
'Till God came between us and you fell for Jesus

You were everything, thing, thing,  
everything to me  
I still love you, I do  
Everything, everything, everything now
