

## Souvenir - 1/2

**Interprété par Korn.**

I never knew what I was gonna be  
Somebody saw what I couldnt see  
And lifted me up now  
I never thought I could be worthy of  
Lovin under the sky above  
Don't let the wonderful  
Why does everybody have to fit in  
You should feel comfortable in the skin  
Does that mean I am the

Souvenir of sadness  
Method to the madness  
Hands up if you feel this  
Anyone who has this...

Stand up! Nobody's dryin to save you  
Speak up! Nobody's waiting to see you  
Wake up! Nobody's working to pay you  
Let me make it clear you have this  
Back up! Nobody to destroy you  
Now this! Knew I grown up to be this hard  
Go then! whatever's wrong with your head  
Love is my souvenir of sadness

They never knew what I was gonna say  
Punch me and kick me and run away  
You know who you are so  
Now look at me what do you have to say  
Never give up for you anyway  
You know who you are so  
Now look at me what do you have to say  
Never give up for you anyway  
Happy child look at that
