

## All messed up - 1/1

Interprété par Sum 41.

Another day wasted out of time  
I can't get out of this  
Altered state of mind  
I'm going overboard  
My conscience meets decline  
Into Reality  
I know this can't be fine

[Chorus]

Cause I'm all messed up  
Making prefect nonsense  
Drowning in my doubt too well  
Cause I'm all messed up  
Going nowhere fast but circles in my mind  
So blind

Who are these voices in my head  
I can't go on like this  
Living like the dead  
I haven't slept so long  
Feeling sad I dread  
I'm talking to myself  
Forgot what I just said

[Repeat Chorus]

Well I hold my only enemy as closely as a friend  
And I sold my own reality to further my descent

Selt-destruction taking over it's so eay to pretend  
Introduction to this nightmare(qui c'è un pezzo che nn riesco a decifrare provateci voi) may never end

Can anyone help me drag my heels  
I'm running overtime  
I can't hold down my meals  
My mind is racing by  
Staring blankly feels  
Like pulling out my teeth  
While this engine winds

[Repeat Chorus]
